

2024 SPONSORSHIP PACKAGE

SPARKANS

FIRST Robotics Team

The Next Generation of Innovators in Robotics

Who are we?

We are the Sparkans FIRST Robotics team, a group of passionate and committed high school students from STEM Innovation Academy, Calgary, Alberta. Our school is dedicated to science, technology, engineering, and math. Founded in 2022, our team is new to the FIRST (*For Inspiration and Recognition of Science and Technology*) Robotics Competition community, and we plan to connect and develop as a team in the upcoming years. With a hands-on experimental approach to robotics, we continue to build the foundation for future generations of Sparkans!

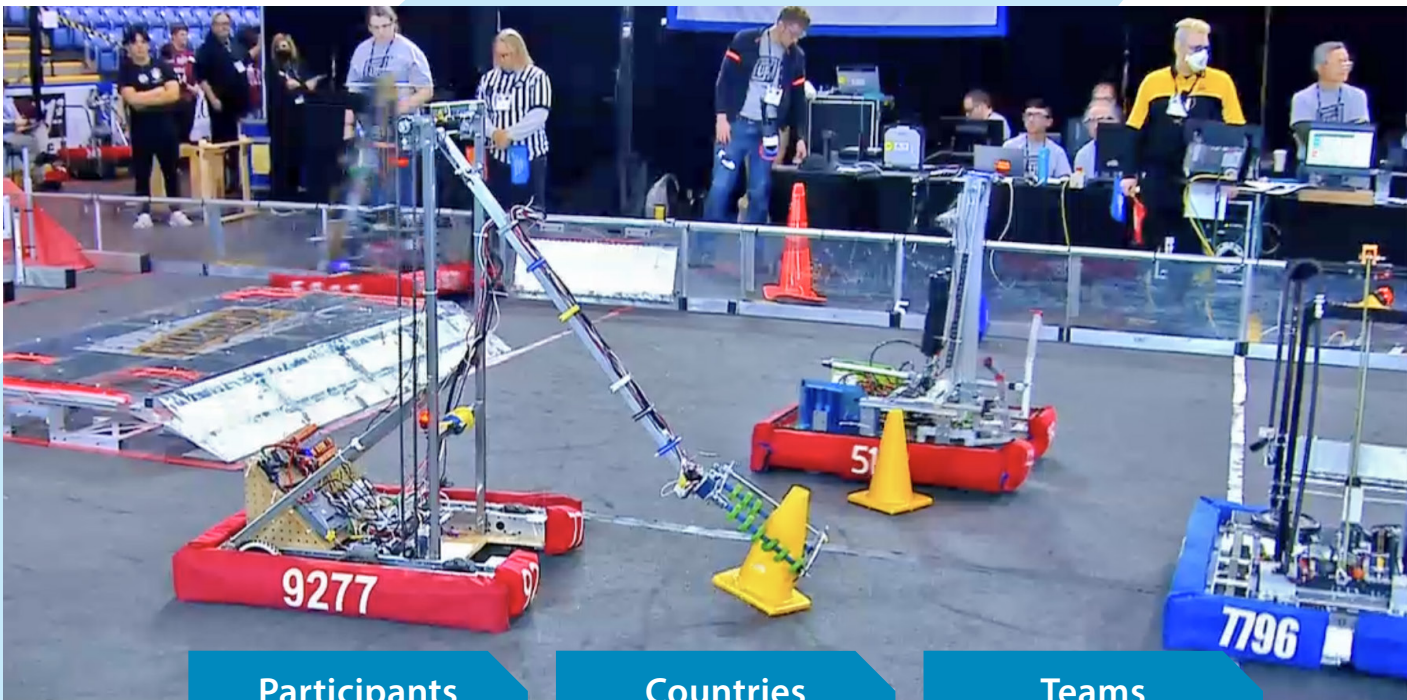

All team members have the opportunity to expand and develop their skills. Our team is split up into multiple, separate, specialized groups specific to a career field including, but not limited to, electrical, mechanical, marketing, and programming. However, every individual on the team is not restricted from reaching and learning in another area. We believe that the FIRST Robotics Competition provides a unique and valuable learning experience for our team members, and we are excited about the potential it has to inspire and engage young adults in STEM fields. With your support, we can make this experience a reality!

Event Information

FIRST Robotics Competition (FRC) is an *international* robotics competition dedicated for high school students to design and construct semi-autonomous, competitive robots to compete with other schools from around the world. Every year, teams of high school students, coaches, and mentors work during a six-week period to build robots capable of competing in that year's game.

Designing, prototyping, wiring, building, coding, and so much more goes into making an FRC Robot. With help from sponsors, we are able to fund our various expenses including parts, accommodations, meals, and out-of-town travelling.

Participants
80,000+

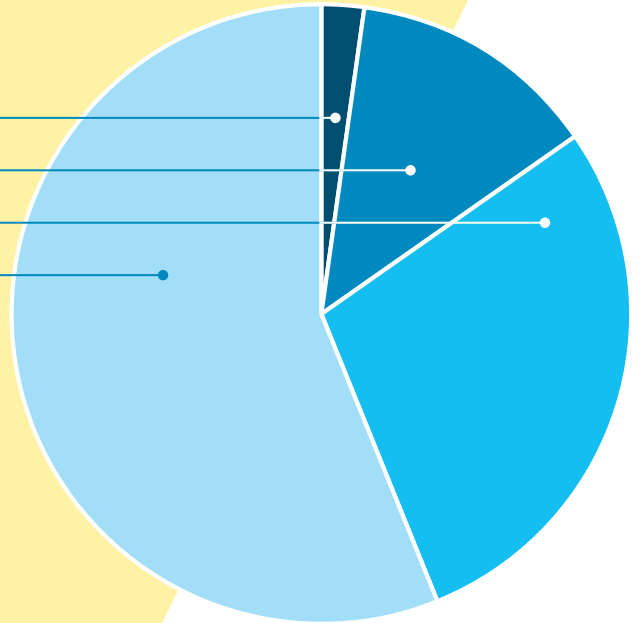

Countries
26+

Teams
3,000+

Budget

This was our 2022/23 budget.

■ Branding	\$ 600
■ Parts, Supplies & Equipment	\$ 3,900
■ Competition(s)	\$ 8,500
■ Transportation & Accommodations...	\$ 16,700
TOTAL	\$ 29,700

Over
75%
of *FIRST* Alumni are in a
STEM field as a student or
professional

*Alumni are High School graduates who participated in FIRST

Sponsorship Levels

 SPARKANS FIRST Robotics Team	Diamond \$5,000+	Platinum \$1,000+	Gold \$500+
Company name or logo displayed on robot	Logo 2.5x	Logo 1.5x	Logo 1.0x
Company name or logo displayed in pit area	Logo 2.5x	Logo 1.5x	Logo 1.0x
Company name or logo displayed on website	✓	✓	✓
Invitation to our school for a robot demonstration, media allowed	✓	✓	
Company name or logo included in promotional video	✓	✓	
Company name or logo on team apparel	✓	✓	
Sponsor recognition at live event	✓		
Focused promotional material	✓		

FIRST allows for the hands-on, real-world experience in STEM fields and education. **98%** of students reported improvements in **problem solving**.
